OFFERING

Paragon Real Estate Advisors is pleased to present the exclusive listing of the Harrison Apartments, a rare investment opportunity in the heart of South Lake Union. Positioned on a 7,200 SF corner lot with alley access, this 12-unit apartment building is being offered for the first time in over three decades.

The property features a fully occupied, yet underperforming, apartment complex with immediate value-add potential. Current rents are estimated to be approximately 40% below market, with additional upside achievable through unit renovations as turnovers occur. The building consists of 10 one-bedroom/one-bath units (approx. 700 SF each) and 2 two-bedroom/one-bath units (approx. 850 SF each). The interior of 5/12 units have been partially updated with new LVP flooring, sinks and countertops.

Zoned SM-SLU 85-280, the site offers substantial redevelopment potential. While a formal feasibility study has not been completed, preliminary estimates suggest the lot could support up to 55 residential units averaging 550 SF (buyer to verify).

Located in South Lake Union, tenants enjoy unmatched amenities such as the Lake Union Waterfront, countless bars and restaurants and great public transportation to all parts of the city. This offering provides investors with a rare chance to secure a historically low vacancy apartment building with strong income growth potential and long-term development upside in one of Seattle's most dynamic urban neighborhoods.

LINK LIGHT RAIL

The Sound Transit Link Light Rail system connects Angle Lake to North Seattle, with more than 20 stations that run 20 hours a day, 7 days a week. The expansion of the original light rail system was approved by voters in 1996, 2008, and 2016 giving the green light to the most ambitious transit project in the country, with a goal of opening new stations every few years. Future extensions will include opening new stations in Shoreline, Mountlake Terrace, Ballard, Tacoma, Everett, and extending to the East side of Lake Washington. These expansions are expected to be completed by 2044, connecting the major cities of the Puget Sound through affordable public transportation.

The Northgate, Roosevelt, and University District Stations were all opened in 2021 and provide fast and accessible transportation to North Seattle's neighborhoods. With travel times from the Northgate Station of 7 minutes to the University of Washington, 14 minutes to Downtown Seattle, and 50 minutes to SeaTac Airport.

In 2026, Sound Transit will open the full East Link Extension (2 Line) between downtown Seattle and Redmond, which will add new stations on the eastside and in downtown Seattle. Since 2020, the Light Rail system has been powered solely by carbon-neutral renewable energy.
